

FOZTRAX Pty Ltd

Capabilities

Foztrax has a track record of nearly 10 years providing 24/7 rig support and rig moving services to CSG drilling teams in the Surat Basin. The experienced Foztrax team integrates seamlessly with drilling teams and provides drill water, potable water and mud carting, drill rig moving, escort services, tilt tray transport, mechanical servicing, air conditioning and breakdown support.

Foztrax:

- Designs and supplies bins for pitless drilling that significantly reduce water usage and impacts on the environment. Pitless drilling tanks are dual purpose mud tanks and flare tanks and are proven performers in the field.
- Are rig moving specialists with a track record of 100% reliability rig and equipment movement.
- Provides experienced civil construction services for mining and CSG sites in the Surat Basin covering earthworks for drill pads, equipment pads, laydown areas, haul roads and access roads, site rehabilitation, water storage dams, clearing, cartage, heavy haulage, welding, wet hire and dry hire of plant.
- Offers proven design and construction of pin on stick rakes and cutter bars for dozers.

Foztrax is an innovator with a focus on delivering practical benefits in the field. This culture of continuous improvement is supported by responsive service, safe and incident free transportation and earthworks and flexibility to meet site requirements.

Services include:

- **Drill rig support services** including
 - Heavy haulage of drill rigs (local and interstate transport) for equipment (up to 80 tonnes) using 4 x 8 low loader. Dolly available.
 - Escort service
- **Foztrax pitless drilling bins** - portable mud system bins for pitless drilling and water storage – delivering environmental benefits, improved water storage capacity and the ability to reuse water. Key features:
 - Eliminates the need for mud pits.
 - A flare bin conversion is also available for these tanks. Currently being assessed by DNR for approval AS/NZS:2008, AS/NZS5601.1:2010, AS/NZS 3814-2009, AS/NZS 60079
 - Jetting Tanks – robust construction – vented for gas release
 - Flow test capability
 - Hydraulic power pack lifts front and rear for towable transport.
 - 6" outlets make cleaning easy

- 4" outlets for pump out
- Capacity 24 000 litres

In 2010 Foztrax developed a mobile Jetting Blast tank and portable mud bins for use in gas field operations. In 2014 the company developed modifications on the portable mud bins for use as a flare tank.

The company's product is innovative and features a jetting blast bin – developed in conjunction with EasternWell Services. This was modified in conjunction with Major Drilling

- **Civil construction** for oil, gas and construction specialising in:
 - Haul roads and access roads for CSG and mining sites.
 - Infrastructure pad construction
 - Pad maintenance
 - Laydown areas
 - Industrial shed pads
 - Site rehabilitation – agricultural pasture re-establishment
 - Bulk earthworks
 - Erosion control contour banks
 - Gravel stockpiling
 - Side tippers (road train)
 - Gravel carting
 - Stick Raking
 - Timber clearing/chaining
- **Water carting**
 - 7 fully equipped semi water tankers & twin steer trucks
 - Quick fill tankers – 25000 litre capacity
 - Sprays for dust suppression
- **Mud carting.**
 - Mud storage and carting
 - 8" muddy water outlets
 - Tipping tanker for easy emptying
- **High Volume Water Pumps**
 - 6" diesel pumps available
- **Tilt Tray Services.**
 - 10 ton capacity for transport of equipment between sites.
- **Plant Hire – Wet & Dry hire** of Earthmoving equipment
 - D375-5 Dozer with Coal blade rake & rippers
 - D155-2 Dozer with rake
 - D135 with rakes, rippers, cutterbar, seeder for pasture establishment also used for rehab work
 - Excavators 5 ton to 48 ton - Hammer attachment, roller, tree mulcher
 - WA500 front end loader
 - WA420
 - WA320

- JCB
- Bomag 20 ton pad foot roller
- 815 B compactor
- Vibrating Roller
- GD825 Grader
- 14 ton Franna
- **Mechanical field service** and Workshop Services
 - Fully qualified diesel fitters,
 - Equipped service vehicles
 - Heavy vehicle Break down recovery service
 - Air conditioning services.
 - Aluminium Welding & Repairs
 - Made to measure- Custom built Aluminium Toolboxes.
 - Stick rake and cutter bar construction
 - Steel Welding & Repairs

Foztrax has a reputation for safety, timeliness, quality and reliability in their work ensuring that the job is well done and to customer satisfaction. Foztrax works with oil, gas, mining and agriculture clients throughout the Surat Basin and Central Queensland.

Testimonials include:

- Easternwell – excellent reliable service.
- Devneth Drilling – “trust you to do the right job and safely”.
- Major Drilling – prompt reliable service, adaptability.
- Site Supervisor – make the call and they are coming down the road to do the job.

Equipment & Resources

Foztrax services the Surat basin area from our Warrego Highway base in Dalby.

We have 3 well equipped workshop areas in Dalby – one for servicing, one for fabrication and one general workshop. This cover 500 m2 of workshop space and x 3000 m2 of laydown area.

Civil construction equipment covers dozers, excavators, front end loaders, pad foot roller, vibrating roller, graders cranes, floats, tilt trays, side tippers, trucks, water tankers.

Rig support equipment covers floats, tilt trays, tippers and light vehlishes with IVMS and mine spec.

Staff

Foztrax has 14 trained staff including Qualified Diesel Fitters, Qualified Welder and tyre fitter.

The team has coal mining and CSG experience - 3 staff with Mine Supervisor Certification. All staff have Black Coal Generic Mining, appropriate WHS operator Tickets and inductions with Arrow Energy, Peabody Wilkie Creek, Santos and Ergon Energy Inductions, White cards.

The company holds an Air Conditioning Licence - ARC – AU33679

Staff have good problem solving skills to keep on site operations running smoothly.

Foztrax is a member of:

- Chamber of Commerce Dalby
- CCIQ

Track Record

Foztrax has successfully worked for Peabody Energy (Wilkie Creek), Arrow Energy, Leighton Contractor, Tenix Maintenance Services, Ergon Energy, Western Downs Regional Council, Wambo Shire Council, Seymour Whyte Constructions Pty Ltd, RMA Contractors, Wagner Investments, Johnson Drilling, Devneth Drilling, Major Drilling.

Agricultural Services are supplied to B & K Gibson Farming, Parkinson Brother, Grassdale Feedlot, McConnell Partnership, Baker Farming, DPI - Glengarry, Warakirri Pty Ltd

Prequalification's held with

- ✓ *Peabody Energy Australia Pty Ltd (Wilkie Creek)*
- ✓ *Arrow Energy*
- ✓ *Easternwell Services (EWS) preferred mover of rigs.*
- ✓ *Ergon Energy*
- ✓ *Western Downs Regional Council*
